# HALONG BAY

## GENERAL INFORMATION

**H**a Long Bay, located in Ha Long City and Cam Pha town of Quang Ninh province, is 165 km from Hanoi. With an area of 1,500 km<sup>2</sup> with 1,600 islands, of which nearly 1,000 islands have names, Halong contains much potential value and mystery.

Before nineteenth century, the name Halong was not in the book. Until the late nineteenth century, the new name 'Ha Long Bay' appeared on the maritime map the Gulf of Tonkin by the French, a number of articles on French and Vietnamese. Since the twelfth century (1149) in the reign of King Ly Anh Tong, Van

Don trading port has been established and developed quickly into a busy trading port throughout the Ly, Tran Le Dynasty. This is the first international trading port of Vietnam.

Over the years, even when the port ceased to operate, Halong Bay sustained its attractiveness from visitors everywhere because of its charming beauty. It has been announced as one of world natural heritage by the UNESCO.

Halong bay is homes for many beautiful caves with rustic names that tie closely to history. Taking Cau Go cave as one interesting example. Ancient legend

has it that during the war against the Mongol army, General Tran Hung Dao had to prepare many wood logs here to hide in the bed of Bach Dang River, creating a resounding naval battle in history. Some wood logs were found here, leading to its unique name.

Halong Bay is assessed by two factors: tectonic history and geology, geomorphology. Ha Long Bay is the result of long-term geological evolution. Visitors to Ha Long Bay are not only witnessing the wonders of the world, but also a precious geological museum being kept outdoors for more than 300 million years. The main cave is a vivid evidence of the intrusion of sea water through the geological ages. Environmental geology of Ha Long Bay is also fundamental values arise such as biodiversity, archeology and culture of other human values. Halong Bay concentrate with high biological diversity of ecosystems, tropical waters such as mangrove ecosystems, coral reef ecosystems, seagrass ecosystems, forest ecosystems and tropical plants especially agricultural ecosystems specific parts. To date preliminary assessment flora in the bay area has about 347 species of vascular plants belonging

to 232 genera. Of the 347 known species of plants, 16 species are listed in Vietnam's Red Book of endangered and endangered soon. In the rare species of plants, 95 species of medicinal plants, 37 species of ornamental trees, 13 fruit trees and 10 groups with different usability. Ha Long fisheries and aquaculture operators harvest many sea products such as abalone, sea cucumber, shrimp, fish, squid, octopus, oysters, clams..etc

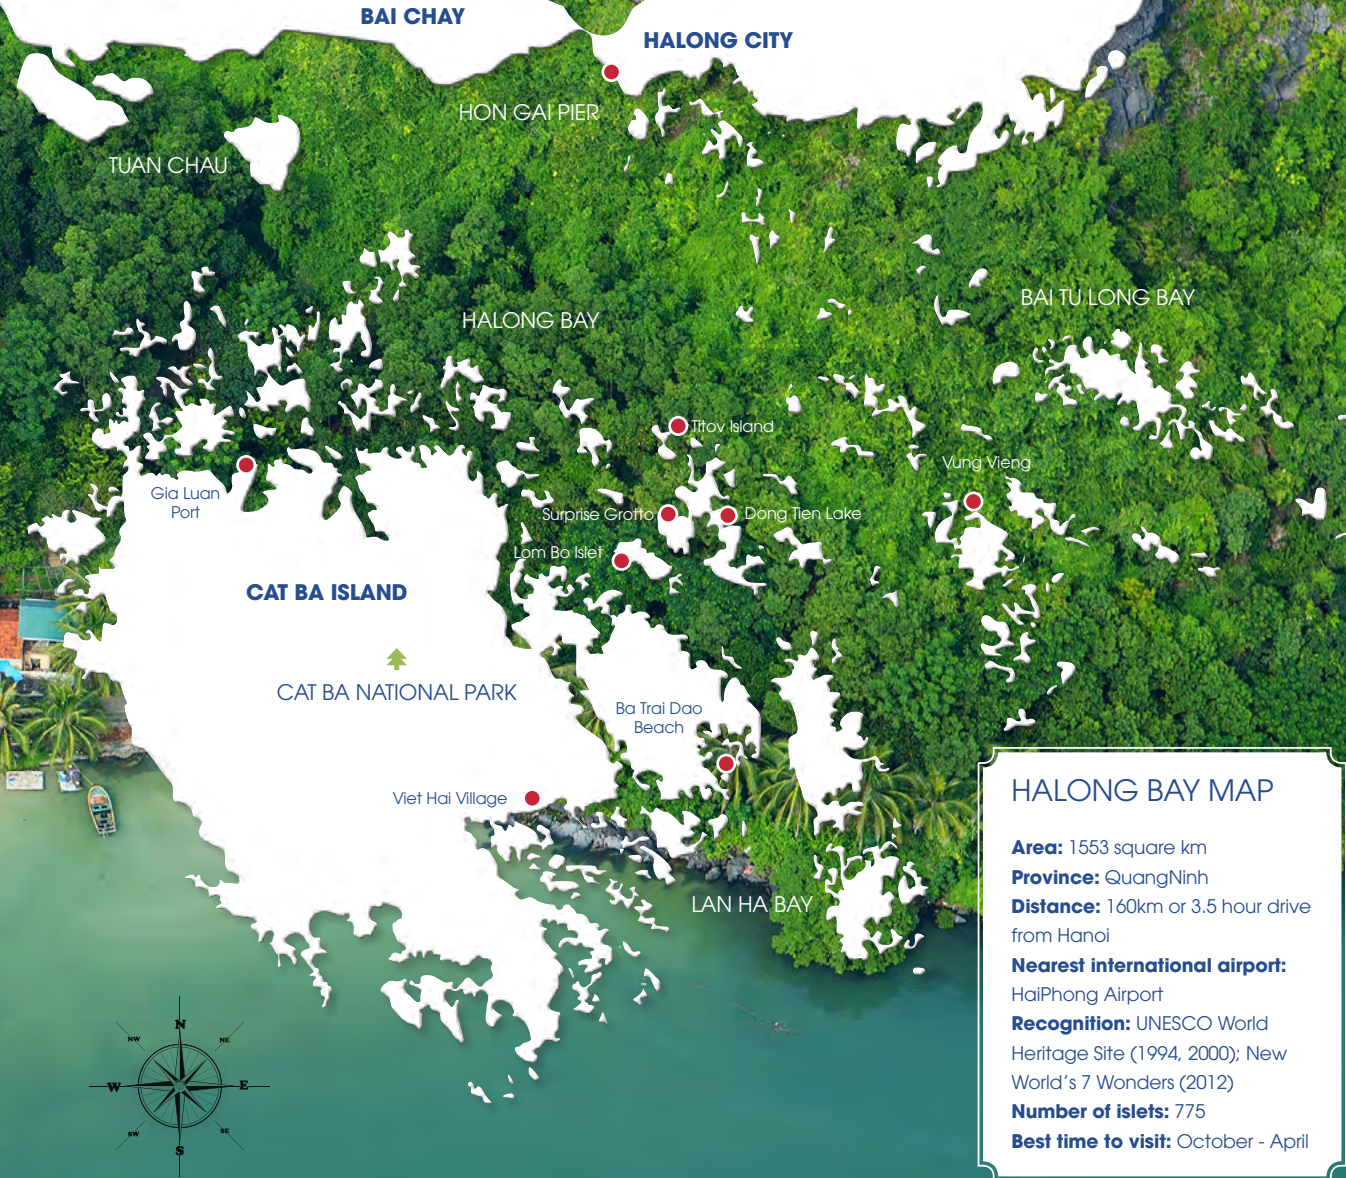

On 12/17/1994, in the 18th session of the Council of the UNESCO World Heritage held in Thailand, Ha Long Bay was officially recognized as a world natural heritage with exceptional value in terms of aesthetic, by the standards of the International Convention on the protection of natural and cultural world. On 02/12/2000, at the 24th Conference in Cairns, Queensland, Australia, World Heritage Council has recognized Halong Bay as a World Heritage 2nd standard geological value and geomorphology. Currently, Quang Ninh province is promoting and filing UNESCO Heritage Site of Halong Bay as the 3rd world heritage title, based on the value of archeology and biodiversity in the Gulf.

## HALONG BAY MAP

**Area:** 1553 square km

**Province:** QuangNinh

**Distance:** 160km or 3.5 hour drive from Hanoi

**Nearest international airport:** HaiPhong Airport

**Recognition:** UNESCO World Heritage Site (1994, 2000); New World's 7 Wonders (2012)

**Number of islets:** 775

**Best time to visit:** October - April

If one has to visit only one Vietnamese place of interest, one can't get better than Ha Long Bay in the northern province of Quang Ninh. Boasting some 1600 spectacular islands and islets emerging from the emerald water to form a huge graceful work of art, it's no surprise that Ha Long Bay is often cited as a natural wonder of the world. Visit Ha Long and be charmed by an outdoors museum where more than 340 millions years of history is stored and conserved through the limestone karsts.

## WHAT TO SEE IN HALONG?

First of all, be sure to include Sung Sot (Surprise Grotto), the mothers of all majestic caves in your itinerary. It is regarded as an epitome of karst caves in Ha Long Bay and an Opera Theatre, with 3 main chambers that promise to take your breath away. Other visit-worthy caves are Dau Go, Bo Nau and Trinh Nu. Whether or not you're intimidated by the inevitable crowd of tourists in those caves, BaiTu Long Bay is absolutely not to be missed. The complex, which occupies three-quarters of the Ha Long Bay area, is less known, but it doesn't pale in comparison with nearby attractions. It's not easy to find a place so packed full of aesthetic beauty, biodiversity, and culture as BaiTu Long Bay. You won't be disappointed with stone mountains, long sandy beach, corals, forests, and fewer tourists as a bonus.

Many boat cruises offer rewarding activities for the energetic, such as kayaking; discovering the geology, geomorphologic and biodiversity value of the bay; fishing trips; talking with people in fishing villages; coral diving; and cycling on islands. Once you've got your kicks from all the good things that Ha Long Bay can offer, what is a better way to call it a day than sleeping on the boat at the bay, immersing in the majestic and mysterious, inspiring and imperious nature of the calm water, the starry sky and the grand islands. Halong Bay is the stuff of myths and naturally the Vietnamese have concocted one. Even when you have seen numerous beautiful caves in your life, it won't spoil to explore the distinctive nature of Ha Long Bay and see why it was listed as a UNESCO World Heritage Site.

# THE 7 REASONS WHY EVERYONE SHOULD SEE HALONG BAY ON A CRUISE

Planning a trip, especially a vacation so far away from home, can be both stressful and exciting. The problem is usually with having too many options to choose from and how to fit all attractions and activities in such a limited amount of time. Halong Bay, with the scattering islets and grotto over a body of water, is without doubt best seen on a cruise. In fact, an overnight cruise trip is the best way to enjoy its natural beauty, while you can spend your time meaningfully with your loved ones or a freshly made friends. But there are even more to that. Below are the 7 reasons why so.

## 1 CONVENIENCE

Ha Long Bay is packed with limestone islets rising from the emerald waters and pristine caves with interesting rock formations. As a result, independent travelers may have a hard time finding way around this popular destination. Cruise is therefore the best way to savor the amazing beauty of Ha Long Bay. The most breathtaking islets and grottos are always included in the itinerary of the cruise and you won't miss out on the best attractions that Ha Long Bay has to offer.

## 2 BEST VALUE FOR MONEY

Most attractions and activities in Ha Long are best explored on the water. You wouldn't be able to save that much if you travel independently

and have to pay for the food, transportation and accommodation separately. Cruise may sound like a pricy option at first, but when you add all these individual services together, you will be astounded by how much you can save. As a matter of fact, cruise is best value for the vacationer no whatever budget they are on.

## 3 VARIETY

No forms of vacation offer such a comprehensive experience like a cruise vacation. A cruise vacation grants you several entertainments and fine dining options, all of which are located steps away from your room. Most cruises offer nightly entertainment, which may include live bands, squid fishing and other fun communal activities. The deck offers sunbathing and

sightseeing - some cruises even organized tai chi in the early risers. In addition to seeing multiple picturesque islets at your own leisure, you can also explore various ethereal grottos when the cruise docks.

## 4 RELAXATION

Even if you are all for energetic activities, there will be time when you need to unwind with a cocktail. We all work longer hours now than before, and we deserve a full-on vacation recharge before resuming to work. What is more entertaining than lazing on the sundeck, basking in the wind and waves of Ha Long Bay, while being pampered and well-fed? If you go with luxury cruise such as Paradise Peak or Au Co, do not miss out on the spa and Jacuzzi services on board for utmost relaxation.

## 5 FAMILY-FRIENDLY

A cruise is hard to beat in terms of family entertainment. Indeed, many cruises offer a customizable experience where both parents and children can have a good time. There are childcare facilities where children can enjoy activities designed just for them. At the same time, parents can enjoy some privacy with their spouse while on board. Family-friendly entertainment for those who want a bonding time is also available on many cruises.

## 6 TOP-QUALITY CUISINE

At the end of the day, what you probably love the most is the culinary experience at Ha Long Bay. However, finding a good restaurant may be a tricky part. That's where cruise prove its superiority to other forms of travel. You can always count on superb dining choices on a cruise, as top-notch chefs with strictest hygiene standard will prepare your meals. Besides, you also get to savor all the exotic seafood goodness that Ha Long has to offer at a relatively cheaper price than high-end restaurants, all included in the cruise price.

## 7 SHARING YOUR EXPERIENCE

With passengers varying from 10 to 50 on each vessel, cruising offers unique opportunities to meet like-minded travelers - and you'll share new experiences that you probably won't find with other types of vacations. With plenty of fun group activities, get ready to create unforgettable memories and make friendships that last a lifetime.

# FAQS

## Q What time does the tour start and end?

Most cruises will leave the harbor at noon and return before noon the next day or 2 days after that, depending on which trip you book. To meet the cruise schedule, be prepared to be in Hanoi before 8AM since it takes at least 3 hours to reach the harbor. If you are late, some cruises also offer tender service to take you to the larger vessel.

## Q When is the best time to visit Halong Bay?

Generally speaking, Halong Bay is great to see any time in a year. However, the dry season from October to December and the spring time from February to May are best in terms of weather. If you are a budget-minded traveler, choose the low season from May to September where there are many cruise deals.

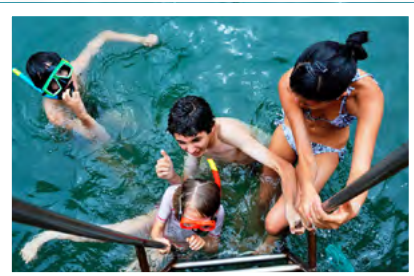

## Q What activities are there besides sightseeing while I'm at sea?

There are plenty of things you can do while on board. Many cruises organize cooking class, teach tai-chi class for morning exercises and provide entertainment facilities at night. Depending on your stamina, you may even choose to kayak or rock-climb.

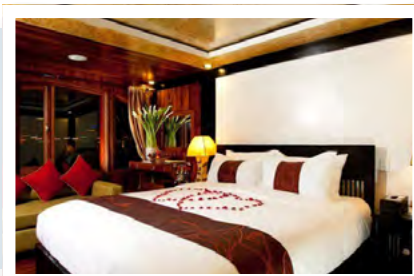

## Q Is the small boat more cramped?

Small and large vessels will cater to different needs. If you prefer cozy space then a two to six cabin cruise will be best - think Violet or Valentine. Smaller boats mean greater privacy. In case you want to mingle and make new friends, then a larger boat will be your choice, such as Paradise cruise or Paloma.

## Q Do I need to dress up special for the cruise?

Yes and no. There is no formal attire required - you may want to wear the most comfortable outfit you have. On the other hand, bring swimsuit if you plan to soak yourself in the emerald water of Halong Bay. If you are celebrating a special occasion, then plan to dress up as well.

## Q Can children take the cruise trip?

Absolutely. All cruises offer extra beds for children if you want to keep them with you in the cabin. Cribs are also available on selected cruises. In fact, this is one of the best time you may find being with your kids. Imagine taking them out to kayak, playing chess with them or fishing for squid with them at night.

## Q Should I tip?

There is no formalities on tipping in Vietnam. As long as you are happy with the service, you can always show your gratitude. However, do not feel obliged to do so.

## Q Will the bus pick me up from my hotel?

Yes if you are staying in the Old Quarter. No if you are out of this area: you will need to take a taxi to the bus stop to be collected.

## Q Can I use my phone or the Internet?

It depends on which cruise you are taking. You can use phone on all cruises but some do not offer wifi internet. Please check cruise amenities for further details.

## Q Will I need any visas?

When you enter Vietnam, you are already requested to possess a valid visa and other travel documents. There are no other special documents you need to cruise Halong Bay.

## Q Can I smoke on board?

You are not allowed to smoke inside the cabins on all cruises for safety reason. You can, however, do so if you are away from the cabin and public area.

## Q I am vegetarian. Do I need to bring my own food?

Many cruises offer special meals for people with dietary needs such as vegetarian or vegan. Please indicate so at the time of booking so the cruise can prepare the best meal for you.
